key features and benefits

Modularity: Accepts all Mini-Com® Modules; individual modules snap in and out

Metal supports: Mounting brackets pinch on to the fiber ladder rail and can be oriented up or down

Cable Management: Spools can be added for fiber slack management

Center metal supports: Supports raised floor panels

UL approved: Suitable for use in air handling spaces

applications

The Fiber Ladder Rack Mount Enclosures offers great versatility regarding installation options and is designed to work with overhead and underfloor systems as a consolidation point. Recommended applications include wire baskets, ladder trays, wire grids, and wall mounts. Fiber Ladder Rack Mount Enclosures save time and money by reducing the amount of time required to complete moves, adds and changes. Troubleshooting is also simplified as the connections can be tested and certified before installation.
